

Later Privacy Policy

Last Updated: January 31, 2022

This Privacy Policy describes Our policies and procedures on the collection, use and disclosure of Your information when You use Later.

By using the Service, You agree to the collection and use of information in accordance with this Privacy Policy.

Summary

We may collect your Email in order to authenticate your account. Google may collect and use other information for their own purposes.

Definitions

For the purposes of this Privacy Policy:

- **Account** means the account created for You to access our Service
- **Application** means the software program provided by the Company downloaded by You on any electronic device, named Later
- **Company** (referred to as either "the Company", "We", "Us" or "Our" in this Agreement) refers to Later.
- **Country** refers to: British Columbia, Canada
- **Device** means any device that can access the Service such as a computer, a cellphone or a digital tablet.
- **Personal Data** is any information that relates to an identified or identifiable individual.
- Service refers to the Application.

Collecting and Using Your Personal Data

Types of Data Collected

While using Our Service, We may ask You to provide Us with certain personally identifiable information that can be used to contact or identify You. Personally identifiable information may include, but is not limited to:

- Email address
- User data
- Usage data

We may also collect information that your device sends whenever you visit use the Application ("Usage Data"). This Usage Data may include information such as your computer's Internet Protocol address (e.g. IP address), operating system, the pages of our Application that you visit, the time and date of your visit, the time spent on those pages, unique device identifiers and other diagnostic data.

Use of Personal Data

We may use Personal Data for the following purposes:

- **To manage Your Account:** to manage Your registration as a user of the Service. The Personal Data You provide can give You access to different functionalities of the Service that are available to You as a registered user.
- **To contact You:** To contact You by email regarding updates or informative communications related to the functionalities, products or contracted services, including the security updates, when necessary or reasonable for their implementation.

Your Access to Your Personal Data

You can access and update your personal data on your own in certain sections of the App (e.g. the Account Settings section). You can also delete your account in the Account Settings section.

You have the full legal right to request from us the personal data we collected and information on how we process your data; demand its rectification or erasure; restrict its processing (blocking); or object to data processing. You can also ask us to transfer the personal data we process to any other project, company and/or any other entity or person you deem appropriate (data portability right). We will do our best to fulfil your request in the shortest possible time. You also have the right not to be subject to automated decisions (made solely by machines) that affect you, as defined by law.

Disclosure of Your Information to Other Third Parties

We disclose your information to other third parties in specific circumstances, as set out below.

Providing information to third parties such as Google Inc. who collect information through our use of Google Analytics on our website. Google uses this information, including IP addresses and information from cookies, for a number of purposes, such as improving its Google Analytics service. Information is shared with Google on an aggregated and anonymized basis. To find out more about what information Google collects, how it uses this information and how to control the information sent to Google, please see the following page:
<https://www.google.com/policies/privacy/partners/>

Use of Third Party Services

Firestore Authentication (Google Inc.)

Firestore Authentication is a service to authenticate user accounts in-app, as well as provide other services such as password reset.

Can collect a user's password, email address, phone number, user agent, and IP address for authentication purposes

Firestore (Google Inc.)

Firebase Firestore is the database in which all app data is stored. It is where we store the Later data users provide during the normal use of the app. In addition, it may collect the following information:

- IP address
- User agents

Google is certified under the Privacy Shield Agreement, which provides a guarantee to comply with European privacy legislation (<https://www.privacyshield.gov/participant?id=a2zt0000000001L5AAI&status=Active>).

Law Enforcement

Under certain circumstances, the Company may be required to disclose Your Personal Data if required to do so by law or in response to valid requests by public authorities (e.g. a court or a government agency).

Other legal requirements

The Company may disclose Your Personal Data in the good faith belief that such action is necessary to:

- Comply with a legal obligation
- Protect and defend the rights or property of the Company
- Prevent or investigate possible wrongdoing in connection with the Service
- Protect the personal safety of Users of the Service or the public
- Protect against legal liability

Changes to this Privacy Policy

We will let You know by email and/or a notice in the Application prior to the change becoming effective and update the "Last updated" date at the top of this Privacy Policy.
